ISOLATOR SWITCH / 20A DOUBLE POLE + NEON

FAQ SHEET

| CATEGORY | QUESTION | ANSWER |
|--------------------|--|--|
| APPLICATION | What is a double pole control switch used for? | Use for appliances where isolation is required from the ring main for maintenance or safety purposes. Typically used to isolate higher power appliances that can be wired without a plug, such as a water heater or radiator, up to 20A. |
| INSTALL | Can I install my switch myself? | We always recommend that our products are installed by a qualified electrician. Always refer to the safety notices within the instruction manual before attempting install. |
| INSTALL | Will this fit my existing backbox? | 1G: W 70mm x H 70mm x D 37mm, square back box. Back boxes can be supplied on request. |
| CUSTOMISE | Can I customise the appearance of my control switch? | Lots of our products are customisable with interchangeable penny button screws available in 5 finishes. Please contact one of our sales representatives for custom requirements. |

WEEE directive

Regulations require the recycling of waste from Electrical and Electronic Equipment (European 'WEEE Directive' effective August 2005 -UK WEEE regulations effective 2nd January 2007).

Environment Agency Registered Producer: WEE/MM5108AA
