The GALWAY pendant light epitomises the fusion of minimalist design and maximum functionality. Its striking shape not only offers an aesthetic touch, but also practical benefits. The special up-and-down lighting ensures uniform illumination of the room. In addition, the Lift Me function allows you to flexibly adjust the height of the GALWAY to optimise the positioning of the light in the living room, dining area or office. You can also adjust the brightness and light colour continuously using a dimmer. In matt black, the pendant light blends elegantly into existing colour schemes. The use of LED light sources is recommended for energy-saving lighting. These are an ideal alternative to conventional halogen light sources and offer high light quality and energy savings of up to 80%. With LED light sources, you also benefit from a long service life and low heat generation while protecting the environment.
